

How to Fold an Origami Bird

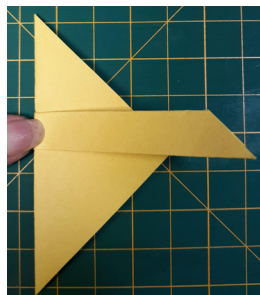

1 Fold 4" square of paper in half diagonally.

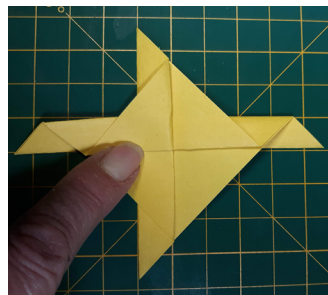

2 Fold the folded edge $\frac{1}{2}$ " down.

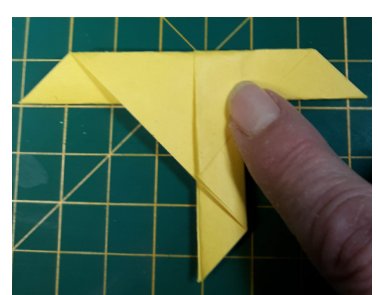

3 Flip over and fold one point open.

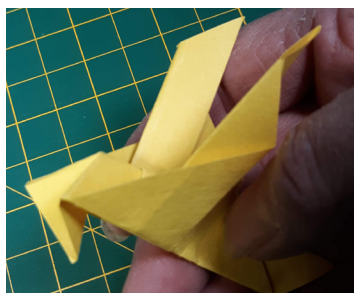

4 Fold left point to right point.

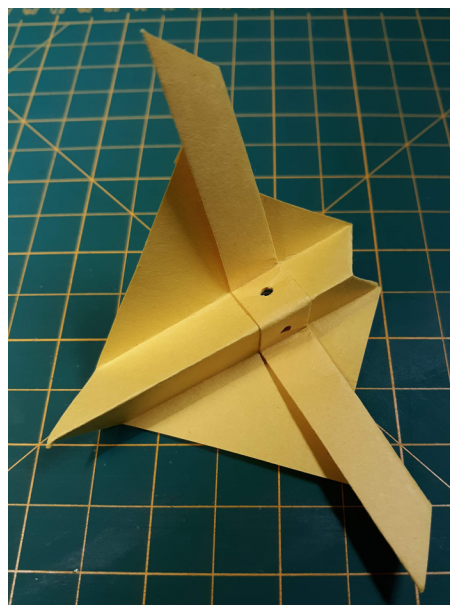

5 Fold left point back for one wing.

6 Fold right point back, for the other wing.

7 Reverse the fold for the center of the head.

8 Punch a hole in the center of the back.

9 Thread the nylon monofilament through the hole and double knot it close to body.

Hang the origami birds on cords set at a variety of lengths along the branches.
